

6. Look at the animals and describe them.

1. This is a bee. It is small. It is black and yellow. It can fly, but it can't swim. I like/dislike bees.

2. This is a frog. It is small. It is green. It can jump, but it can't fly. I like/dislike frogs.

3. This is a ladybird. It is small. It is red and black. It can fly, but it can't jump. I like/dislike ladybirds.

4. This is a shark. It is big. It is grey. It can swim, but it can't fly. I like/dislike sharks.

7.

Draw, colour and describe your favourite animal.

A group of owls is called a parliament.

Owls have claws called talons to help them catch food.

Owls can turn their heads as far as 270 degrees.

Owl feathers are coloured to provide camouflage.

Their vision is long-sighted, so owls can't see things clearly up-close.

Many owls have asymmetrical ears.

The smallest owl in the world is the Elf Owl. They are between 12 cm and 15 cm tall.

Barn Owls don't only roost and nest in barns!

Barn Owls can roost and nest in cavities, trees and nesting boxes.

Some owl species hunt fish.
